

Members.

To comply with revisions made to Aire Valley UK's public liability insurance policy for this riding season all ride-outs advertised on Aire Valley UK's website, Facebook or by text message are official ride outs.

As such they should have a lead rider, not necessarily a road captain, and they should adopt the second man drop off system of marking the route where this is required. They should also have a designated back marker, and should follow the ride-out protocol used on our Sunday rides.

All members must follow these simple rules, or you cannot publicise the ride on any the Aire Valley UK's communication streams.
